| • Agile/Scrum (Created Team Project) |                      |
-

---

## **WORK EXPERIENCE**

**Archives Technician**, U.S. National  
Archives and Records Administration  
Saint Louis, MO

03/2018 – 07/2021

- Used automated production systems, input data and prepared system queries of various types of pending search requests to create logical batches of search requests, taking into consideration the complexity of the requests, the priority of the requests, the Center's queue discipline, and the location of responsive records.
- Searched and retrieved from holdings the responsive records needed to support the order fulfillment process. Searching temporary and permanent records series, including accessioned (archival) records and fire-damaged records.
- Performed trouble-shooting activities to locate the responsive record in instances where the initial search attempt failed to produce the responsive record. Updated the production system to reflect status in the order fulfillment cycle.

### **Affiliations:**
